

## Special Love

### 3.2 – Parent/Agency Information

Special Love provides recruitment information to all of our service hospitals in the form of brochures, scrapbooks, and links to our [videos](#) and [social media](#). We also visit the hospitals to attend camp or resource nights and to speak with parents in the outpatient clinic. We have recently begun providing meals once a month at our closest facility (Fairfax) and we're developing an "in-hospital camp" program for use at several others. Not all of our service hospitals permit outside groups to come in – for those, we depend on strong word-of-mouth and family/camper referrals.
